

Wealth in a Nutshell

by Marc Ferguson

What if your financial reality had nothing to do with your salary, debt, or your bank account. And everything to do with the thoughts you are thinking right now. I state that your mind is the printing press of your money. Today I am communicating to you the possibility ever unfolding to take possession of your mind for the purpose of placing it in wealth mode. This is all designed to completely overhaul your financial reality. This is a rigorous plan especially for money. This achieves an intense rewiring of your brain to spark a wondrous flame that will never ever go out. Shifting you from a mindset of scarcity to one of unshakable wealth. Its goal of course is to create true financial freedom. It is very different from traditional financial advice.

Financial struggle is caused by one thing. And one thing only. And that's our thoughts. And our beliefs. Your salary. The size of your mortgage. Any debt you may have. None of these are the root cause of the struggle. These external things are merely the effect of a root cause. And that cause is the internal cause of thoughts of lack. Money doesn't grow on trees. I can't afford that. And these little phrases are just beliefs that run inside the brains R.A.S. The Reticular Activating

System. It controls your perception. What you see as a reinforcement of what you believe. And stopping what you see because of your belief.

You might believe there are certain laws that are always responding to your thought. This may or may not help to accurately explain the true thought mechanism solely behind what we perceive as the so-called law of attraction. This hidden unrevealed secret mechanism is the ever present presence within us. Within our subconscious mind in the form of the Holy Ghost.

I speak directly of two types of thought. Being self-conscious thoughts. And the thoughts of the Holy Ghost within you when He is truly activated beyond the confines and the direct ramifications of your subconscious mind. Being previous thinking.

Your mind is a combination of thoughts from Him and from perceptive thinking perpetrated by your beliefs made manifest. This combination is at odds generally. Where your subconscious is like a photocopying of your thoughts. While the Holy Ghost strives to bring you through the application of His guidance. To knowledge that will see the photocopy destroyed through more fruitful thoughts from the Holy Ghost ever flowing into your mind to serve as a plan to prosper you and not to harm you with any photocopy that operates upon something you want. Or upon something you are focused on. Because you do not want it. So your photocopy may have been created from your dominate thought of anxiety about your debt. These photocopies will be multiplied in your inward and in your outward experience.

The photocopy made is just debt, lack, struggle. And this is what multiplies in your experience. Whether you want this or not. It is what you receive subconsciously into the internal space for a thought, we term the mind, or consciousness.

It is by acknowledging a belief, or by supplanting it with your new belief that is of major importance. What is the more powerful, the law of attraction or the role of the Holy Ghost gifting you the thinking that brings you to your belief in the underlying concepts and any thereby truth regarding the human mind.

We exist in a mental universe, where consciousness is the first creation that existed from nothing. Really nothing being something. And that consciousness was with God the creative force that made consciousness become endowed with God. By providing the provision for future ramification of consciousness by way of Time applied to all life forms.

It is the Holy Ghost's ability to always access the future inside Time itself that serves you well. When it comes to decision making in the moment if your mind has an unbridled communicative ability to be in rapport with the Holy Ghost. And it is this state of being ever guided from within by the Holy Ghost. Not by way of any

subconscious photocopy thereof. That conjures up moments of human genius responsible for inventions that continue to shape the life we lead. All is meant to be, and in the long run the Holy Ghost's work alongside God in the form of Dear Father and Lord Jesus Christ will prevail and see creation evolve and human perfection attained.

To sum up. Your life is the inevitable effect (outcome) of your thoughts. Your life is an undeniable reflection of the moments devoid of the Holy Ghost's guidance and rather moments of a photocopy, especially about money. The scarcity mindset can become an entire mental filing cabinet filled with photocopies. Predominately thinking thoughts of: Not enough money.

You have to adopt a wealth mindset. The Holy Ghost is ever striving for you to learn. Such as predominately thinking thoughts of abundance and thoughts of evidence of wealth everywhere. And holding the expectation of receiving money. The Holy Ghost cares about your current circumstances, from His point-of-view of helping you change them, through His guidance by the flow of His ideas into your mind for the purpose of giving you wealth creation, money-making ideas that you need to action with great patience as the journey to money may be a big project He is ever giving you ideas for you to create.

A flow from Him thereof of His guidance thereof, instead of the current thoughts based upon a photocopy of past thoughts of yesterday. All taking place with His help and by way of Breath of God listening. Your mind must and will become wealthy first. Adopt the belief that every thought you action is gifting you further ideas to action. Further ideas, and knowledge consumed to advance your thoughts and actions until wealth, prosperity, and money become the normal life giving abundant pattern; you walk right into through your dominate belief that He is helping you.

You can also acknowledge your gratefulness for help from the Holy Ghost by way of a prayer to Dear Father, asking for His guidance. The Holy Ghost being Dear Father's divine spirit of truth operating within the Kingdom of God within you, within your consciousness. Ever operating within your life circumstances ever unfolding. Growing in a manner that it must be said takes patience, kindness, love and a persistent desire forged in the form of a handwritten goal.

Jesus Christ gave us the method I have talked to you about so far when He said in Mark 11: 24 - "Therefore I tell you, whatever you ask for in prayer, believe that you have received it, and it will be yours."

The Holy Ghost is like Father Christmas... Santa, who works at the coal face of consciousness making presents you ask for, likened unto a child's faith in Santa. You believe He will give it to you on Christmas Eve when you are expecting Him to arrive and for this gift to be there when you wake up on Christmas Day.

If you ask for wealth from Dear Father. Don't jam the flow of ideas from the Holy Ghost by making photocopies of thoughts of poverty. It's simple. Look upon Dear Father, Jesus and the Holy Ghost like a child looks upon Santa. So write out a detailed description of your financial situation 5 years from now.

Ask the Holy Ghost to help you write this future event in Time. And He will assist you with a flow of His thoughts into your mind. Being the ideas that will flow best while listening to my Breath of God soundtrack. This guided experience is to create in you a consistent positive focus on your wealth creation outcome.

The next step after this ask stage is the believe stage. Fill your mind prior to sleep and when prompted in thought with the following affirmation:

“I am now writing in my subconscious mind the idea of Dear Father's wealth circulating in my life. God is the source of my supply, and I know the Holy Ghost is the life principle within me. He meets all my needs at every moment of time and point of space. Dear Father's wealth flows freely, joyously and ceaselessly into my experience and I use money constructively and judiciously. Dear Father's riches flow to me freely, joyously, endlessly and ceaselessly in dollars. I pray to Dear Father to give Him thanks for His riches forever circulating in my life.”

Next is the receive stage: Smell the new leather seats in your new car. Wear that new watch. Pretend you are a millionaire until you feel the freedom and reality of everything the Holy Ghost within is bringing you. Once again pray to Dear Father and ask Him for guidance from the Holy Ghost. The shortcut to receive is to be and feel happy, and grateful right now, for the many blessings upon your life. Especially through the freedom great wealth brings with it.

Many believe that expressing copious amounts of gratitude sends a clear signal to the universe you appreciate its gift of abundance. Simply the Universe is not God. It is not Dear Father, it is not Jesus, it is not the Holy Ghost. Thought activity towards assistance from the Universe is a subconscious made photocopy not a benefit.

Constantly think about the money you are receiving and be grateful for any money that is flowing out from you only to be returned to you by way of you freely giving it. Acknowledging the benefit of the Holy Ghost gifting you His guidance for wealth is first of all a mental state.

Now, I'd like to talk to you about how the Holy Ghost is able to gift you a better life. He is connected to Himself in every other human being on the planet. And He knows in advance the outcome or changes in your life that are ahead of you in a future moment in Time. With Time being a very real and a very powerful force indeed. Physical matter is formed when consciousness is frozen in Time.

We have all experienced the passage of Time as the perceived speed at, which an entire year can go by as if only a few months. Physicist's don't believe Time exists. That is rather stupid on their part. And proves they are suffering from an intellectual stumbling block that prevents them from revolutionary discoveries that would change humanity in a very good way.

Rather these advances are made by that rare individual. Their mind of which is in close connection to the flow of life giving ideas from the Holy Ghost within. In a word. A genius is someone who is able to follow the thoughts of ideas entering their mind from God. And they are intuitive enough to action those events in thought. That sees them continue step-by-step towards the patient act of receiving the idea that changes not only their life, but transforms the life of others in a beautiful way. These ideas from God within us are designed to solve a difficulty others are experiencing.

And it is by seeking to solve a given problem on behalf of God and humanity. That ideas for the solution are duly given. And money, wealth and abundance flows through service to humanity by way of God's plan ever unfolding in future Time. Towards a flow of such ideas and the creation in yourself of the gift of extrasensory perception (ESP). I gift you here right now. The following affirmations to increase your level of ESP in a wonderful way. Being an extremely beneficial way, by way of reciting it, especially prior to sleep, and upon awaking, and then often during the day.

Dear Father's infinite intelligence in my subconscious mind reveals to me everything I need to know at every moment of Time and point of space. I am divinely inspired and divinely guided in all my ways. Divine wealth is mine now. Riches flow to me freely, joyously, endlessly and ceaselessly in dollars. Divine guidance is

mine now. I always recognize the lead, which comes to my conscious reasoning mind

through the Holy Ghost. I

intuitively perceive the truth about every situation. I hear the truth. I

see the truth. I know the truth. I see clearly the motivation of others

and if they are ulterior I transform them by realizing the presence of love, peace and harmony where the discord is. Divine

harmony is mine now. Divine success is mine now. Divine right

action is mine now. Divine law and order is mine now. Divine

peace fills my soul now. Divine love saturates my entire being now. I

am illumined by the wisdom of God and I am clairvoyant and clairaudient from a spiritual standpoint.

The only voice I hear is the inner voice of God which speaks to me in peace

towards my success. And my clairvoyance is my heart's capacity to

see peace where discord is, love where hatred is, joy where

sadness is, peace where pain is and life where so-called death is. I

accept, I deserve, I allow God's abundance, riches and wealth

to flow into my life.

“I AM FAR MORE WONDERFUL THAN I EVER IMAGINED”

Within my subconscious depths lie infinite wisdom, infinite power and an

infinite supply of everything necessary by way of the Holy Ghost for

me to be a success. I begin now to recognize and use these

potentialities and they will take form

in the world without. The Holy Ghost's infinite

intelligence within me reveals to me everything I need to know at

every moment of time and point of space as I am open-minded and

receptive. Through the presence of the Holy Ghost in my subconscious

mind I receive new thoughts and ideas enabling me to bring forth new

inventions. Make new discoveries or write books and movie scripts. The

infinite intelligence of the Holy Ghost has a perfect memory of

everything I have ever experienced. And He can impart to me a vast

range of knowledge of an original nature. Through His intuitive powers

and wisdom I can find the right buyers for everything I have for sale. The Holy Ghost provides me with ideas worth a fortune. Giving me the financial freedom to be, to do, and to travel as my heart desires. By way of Him within my subconscious mind I will find the answers to my most perplexing problems and the cause for every effect. He makes of my mind a gold mine and a treasure house within me. I am in my true place. I am doing what I love to do. I am divinely happy and I am divinely prospered.

THE MASTER KEY TO WEALTH!

Step one: Reason it out in your mind, that Dear Father created everything you see. And that all you are aware of came out of the invisible mind of God. And that everything invented, created or made came out of the invisible mind of God. And there is only one mind, as the mind of Dear Father and the mind of man are one mind. Everyone is an inlet and outlet to all that is. Come now to a clear cut decision that Dear Father is the source of your supply of energy, vitality, health, creative ideas, of the sun, the air you breathe, the apple you eat and the money in your pocket. It is as easy for Dear Father to become wealth in your life as a blade of grass, or a crystal of snow.

Step two: Decide now to engrave in your mind the idea of wealth. Ideas are conveyed to the mind by repetition, faith and expectancy. By repeating a thought pattern or an act over and over again. It becomes automatic and your subconscious being compulsive. You will be compelled to express wealth.

The pattern is the same as learning to walk, swim, play the piano, type or drive a car. You must believe in what you are affirming. It's not mumbo jumbo. It's not idle affirmations. You must believe in what you are affirming. Dear Father, Lord Jesus Christ and the Holy Ghost enrich

me. Like you believe that when you put seeds in the ground. They grow after their kind. And seeds are thoughts deposited in your own subconscious mind. Realize that what you are affirming is like the apple seeds you deposit in the ground. And they grow after their kind. You can imagine these seeds going from your conscious to your subconscious mind. And being reproduced on the screen of space. By watering and fertilizing these seeds you accelerate their growth. Know what you are doing and why you are doing it. You're writing it with your conscious pen in your subconscious mind because you know wealth. Walk down the street and you see wealth. Can you count the flowers along the road as you drive? Can you count the stars in the sky? What about the riches hidden in the earth beneath your feet as you walk?

Step three: Recite the following for 5 minutes in the morning and at night.

“I am now writing in my subconscious mind the idea of Dear Father's wealth circulating in my life. God is the source of my supply, and I know the Holy Ghost is the life principle within me. He meets all my needs at every moment of time and point of space. Dear Father's wealth flows freely, joyously and ceaselessly into my experience and I use money constructively and judiciously. Dear Father's riches flow to me freely, joyously, endlessly and ceaselessly in dollars. I pray to Dear Father to give Him thanks for His riches forever circulating in my life.”

Step four: When thoughts of lack come to you such as I can't pay that bill. Never finish a negative statement about finances. This is mandatory, reverse it immediately in your mind. By affirming Dear Father is my instant and everlasting supply and that bill is paid in divine

order. If you look at a farm for example. Never say I can't afford that. You are telling the Holy Ghost your choice in this matter. He takes you literally and you block all your good. On the contrary say to yourself, that farm is for sale, it is a divine idea and I accept it in divine order through divine love.

This is the master key to wealth. It's impossible for any sincere person to practice this technique and not have all the wealth, he or she needs all the days of your life. So follow it, and you're setting the law of opulence into operation. It will work when you choose the riches of life right now, right here.

Feeling for something is to have a heartfelt interest in something.

I am in my true place. I am doing what I love to do. I am divinely happy.

I am divinely prospered. What I feel I attract. What I imagine I become.

It's the start that stops most people. They're always going to get ready. To get set and get going. You've got to do it just like this - move into action. See if you don't get started. You're never going to get finished. How do we do that? Start early. I believe when you wake up. You should get up. Let your feet hit the floor and move into action.

And you know you'd be wise if you sit down at night before you go to bed. And write down six goal achieving activities. And when you wake up in the morning. You move into action. Get into the first one. And when you get it done. Go onto the second one. If you don't get them all done. Just move them onto the next day. Not 9 but 6 still to do. Quit holding yourself back. When you wake up move into action.

Get started and the Holy Ghost will show you the way. When your belief ingrained within you is that He will show you the way, you can get started. When you move into action, everything gets going around you.

When you ask people what do you really want? They will say they don't want to be really wealthy. What they do want is they don't want to have any financial concerns. If they want a new suit, they can buy a new suit. If they want to take a trip they can go.

#2: They want to wake up in the morning excited about how they are going to spend their day. And #3: They want to mix with people who are upbeat and creatively productive.

And it all comes down to setting goals. Would you trade your life for a new car? No, definitely not. It's got to be something really meaningful. And we're not taught to think this way. We should sit down and not give any thought to where the money's going to come from. When a person sets a goal. They say, "What do I really want?" And let your mind really wander into your imagination. How do I really want to live? That's what you should be doing.

Most people don't use their imagination. Unless it's what they don't want. Writing creates thinking and thinking creates an image. With Breath of God listening, you'll understand how wonderful you are. You are God's highest form of creation. There are things about you that will blow your mind when you study them and really understand them, you'll walk a little taller, stand a little straighter.

And you know something? You'll enjoy a whole lot more of life. The purpose of life is to overcome ignorance and welcome in awareness through knowledge. Like the study of books etc. Why? Because the Holy Ghost knows a book has the chance to be read by many people. And because of this and the author's complete focus upon the work of writing it. The Holy Ghost will place thoughts directly into the flow of ideas, thoughts and belief's of the author.

A Breath of God advantage is being able to easily make a decision, and once made. You'll begin to realize thoughts and actions that you would never get before the decision.

And Breath of God removes doubt and fear from your life. And this is a marvellous transformation that takes place by listening to its living silence.

With Breath of God and the input of guidance from the Holy Ghost. You are wired to do something extra special with your life. You will find you'll improve the quality of your life. You'll improve your thinking. And you'll attract a different form of people into your life and they're going to add to your life. You see the very thinking of the people you are surrounded by is going right into your mind; it is best to mix with people who are really making it happen.

Believe and your belief will create the fact. All things are possible if you believe. You are not ready for what you want until you can believe in getting it.

How do you believe? How do you change a belief? Your results are nothing but the manifestation of your belief system. So why not begin today to believe in prayer, and the power of the Holy Ghost within you? He is ever seeking to guide you into new ways of believing.

Once your one major definite desire has been firmly established. With the expectant attitude that your goal or dream cannot be uprooted or opposed by any other idea. Now that you understand the power of the Holy Ghost within you and

your relationship to Him. You're not going to be knocked off track by circumstance. As you are expecting the right thing to happen. I found my dream farm. Because I was looking for my dream farm.

You don't change the color of the kitchen by changing the color of the outside of the house. If you want your results to change permanently and dramatically – change on the inside.

Dear Reader,

The great possessions of life are all GIFTS mysteriously bestowed: sight, hearing, intuition, aspiration, love, or life itself.

The same is true of ideas – the richest of them are given to us, as for instance the powerful idea which this book has given you. What are you going to do with it? Are you surprized when I tell you the most profitable thing you can do is give it away?

You can do this in an easy and practical way by having this book sent to those you know who NEED IT. In this way, you can help in the distribution of this worthwhile effort to make the lives of others better and happier.

You know people who are standing still or who are worried and discouraged. This is your chance to HELP THEM HELP THEMSELVES. If you withhold this book from them you will lose the conscious satisfaction that comes from doing good. If you see that they get this book, then you put yourself in line with the Law of Life which says, “You get by giving,” and you may rightly expect prosperity and achievement.

At the very least you will have the inner sense of having done a good deed with no hope of being openly thanked and your reward will come secretly in added power and larger life.

The Author

“P.S,” The way that you can prove to yourself that the thoughts you are having are from God is to listen to Breath of God.

“P.S.S,” Here it is. The miracle affirmation for wealth and power. Are you ready? Memorize it. Let it become part of your being.

“I am wealth. I am power. I am free. Money flows to me effortlessly. And I use it wisely, joyfully, and generously. God is the operant power in my world.”

Bye for now and God bless you,

Marc Ferguson.
